<sup>1</sup>Fees listed for unground samples based on sample size of 1 pint or less. For larger sample sizes, contact the laboratory.

Volume discounts available. Please contact the laboratory.

<sup>2</sup>Minimum 0.50 g sample required for acid digestion. For Total Nitrogen/Carbon Combustion 0.25g sample is required. Acid digestion and dry ash results are comparable with the exception of Al for which lower amounts may be recovered in the acid digestion procedure. Please contact the laboratory with questions on the appropriate method for your samples.
