

Soils, Civilizations, and Societies

Soils 497U – Spring 2010

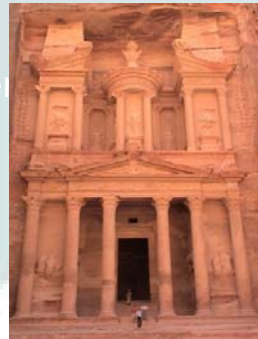

Tues & Thur, 2:30-3:45 (3-6 credits*)

***6 credit option includes 3-week field trip to Jordan in May/June 2010**

THIS HONORS/INTERNATIONAL LEARNING COURSE WILL...

- Investigate how soils and other natural resources have impacted societies throughout history.
- Examine the impact civilizations and societies have had on these natural resources over time.
- Explore problems related to soil use in differing landscapes, cultures, and ecological domains.
- Trace agricultural development and management from its earliest roots to modern times.

Jordan Trip Information
Session: Thur. Oct. 15
4:30-6:30, 205 ASI Bldg.
