THE FRENCH COUNTRYSIDE: LANDSCAPE DEVELOPMENT IN FRANCE
Landscape development at the Villandry. This was my favorite garden because of the different themed areas. The symbolic garden of love was absolutely beautiful. What you see below is a picture of me at the sun garden. To the right is a picture of the chateau and the kitchen garden where the vegetables are harvested for various purposes.
We visited Giverny, Claude Monet’s garden, while in France. Here we looked at different ways that Monet used his landscape architecture to influence his artwork.
Vaux le Vicomte
Nothing will ever compare to the landscape design techniques displayed at Versailles. Our study abroad group spent hours reviewing the landscape on the grounds.
Past Time Activities in France

- Wineries
- Museums
- Dining
- Cathedrals
- Eiffel Tower
