Unless special arrangements are made, PIs and/or their representatives are responsible for:

- being present at the time of project installation and harvest
- scouting or other monitoring for decision-making purposes
- collecting experimental data
- requesting field activities in a timely manner
- understanding the high seasonal demand for equipment and personnel

Every effort will be made to accommodate a research request, however, these will be handled on a first-come, first-served basis and subject to land, equipment and personnel availability.
