PLANT ANALYSIS INFORMATION SHEET: VEGETABLE CROPS

Note: Payment of \$24.00 must be submitted with plant sample (check payable to Penn State University)

Is this a check on nutritional status (field tomatoes only) ?
Or is this a special problem ?

If for a check on nutritional status, send 1 plant sample taken about 30 days after transplanting (field tomatoes only).

If a special problem, send plant and soil samples from both good and poor crop areas (2 plant and 2 soil kits needed).

COMPLETE THIS SECTION FOR ALL SAMPLES:

County _____ Field No. _____

Crop _____ Variety _____ Planting date _____

***For recommendations, please choose crop/variety from back of this form.**

Spacing: between rows _____ within rows _____

Lime: _____ tons/acre of _____ applied on _____
(calcite or dolomitic) (date)

FERTILIZER

Before planting: _____ lbs/acre of _____ applied on _____

At planting: _____ lbs/acre of _____ applied on _____

Method of application: Broadcast Banded

Sidedressed: _____ lbs/acre of _____ applied on _____
(analysis) (date)

FUNGICIDES

Material _____ Rate/acre _____ Application frequency _____ Last spray date _____

COMPLETE THIS SECTION FOR SPECIAL PROBLEMS ONLY:

This soil is: Gravelly Sandy Shaley Eroded
Silt Clay Loam

The topography is Flat Sloping Steep Grade

Rainfall this season was: Light Normal Heavy

Free water drains away: Slowly Quickly

Growth has been: Stunted Average Excessive

If the leaf is discolored, does the color variation occur:

Along leaf margin Between veins Over entire leaf
In spots

Leaves were first affected at: Tip Middle Base of plant

Symptoms were first seen: June July August September

Roots appear: Normal Discolored

HERBICIDES

Material _____ Rate/acre _____ Date applied _____

Additional information (use back if needed): _____

<u>Crop Name</u>	<u>Variety</u>
