Hello and Welcome!

On behalf of the faculty, staff, students and volunteers of the Penn State College of Agricultural Sciences, it is my pleasure to welcome you to Ag Progress Days 2026!

For more than a century, dating back to the Farmers' Institutes of the late 1800s, our college has proudly showcased Pennsylvania agriculture and the science, technology, and education that drive innovation and economic growth across the Commonwealth. This year is especially meaningful as we celebrate two milestones: the 50th anniversary of Ag Progress Days at Rock Springs and the 50th anniversary of the Penn State Extension Farm Safety Program.

Ag Progress Days is, at its heart, about connections. It brings together industry leaders, government and international partners, prospective students, and the many stakeholders who help shape our future. It is also an opportunity to demonstrate the real-world value of your land grant university, showing taxpayers the impact of their investments in research, outreach, and education that strengthen communities and drive economic development in PA. Just as importantly, it is a time to listen. Through town halls and conversations across the grounds, we engage in meaningful dialogue about the future of agriculture, technology, natural resource management, and community development.

For those in production agriculture and related industries, Ag Progress Days is a must attend event. It offers an opportunity to see new technologies in action, connect with innovators, explore research breakthroughs, and discover the latest products and services.

If your interests lie in natural resources and the environment, you will find many opportunities to learn about water quality, soil conservation, woodland management, wildlife habitat, and more.

For families and consumers, there is something for everyone, from expert advice on gardening, nutrition, health, and wellness to interactive experiences like the corn maze, horse demonstrations, butterfly tent, the Pasto Agricultural Museum, and engaging 4-H youth programs.

While you are here, be sure to visit the College of Agricultural Sciences Exhibits Building on Main Street. There, you can explore our Technology for Agriculture and Living Systems initiative and see how researchers are using artificial intelligence and advanced technologies like robotics to enhance food and fiber production, protect natural resources, support biodiversity, and improve human health. We are also excited to partner this year with GoFar, a global ag robotics organization, and the Robotics Factory to bring you the FIRA Robotics Village – East Coast at APD featuring latest advancements in agricultural robotics complete with presentations, panel discussions and demonstrations.

And when it is time to refuel, enjoy the incredible selection of food offered by our nonprofit and commodity group vendors, featuring the very best of Pennsylvania agriculture.

If you need assistance at any point, please stop by the information booth at the top of Main Street. Our team will be happy to help.

Thank you for joining us. I hope you have a wonderful visit, and if you see me, please stop and say hello!

Troy L. Ott '84 Ag

Peter and Ann Tombros Dean, Penn State College of Agricultural Sciences
Director, Pennsylvania Agricultural Experiment Station

General Information

ATM Machine: Located in the Farm Credit Building at the corner of Main and West 6th Streets.

Disability Services: Golf carts, paid in part by a sponsor Lancaster Farming, will be available at the Ag Alumni Pavilion at West 11th and Main Street. They are made available on a first-come, first-served basis for two-hour increments to individuals with medical needs, and drivers must be 18 years or older. A limited supply of scooters will be available for rent from T & B Medical on West 9th Street.

Information Booth: Located at Main Street and across from West 10th Street. Lost-and-found items are kept at the Information Booth. Lost children and adults should contact security personnel on the grounds or report to the Information Booth.

Medical Services: A first aid station is located in the headquarters (white farmhouse) at Main and West 10th Streets. Emergency medical technicians and an ambulance are on site during show hours. Access emergency assistance by dialing 911 or contact security personnel on site.

Pets: Service animals assisting individuals with disabilities are generally permitted in all facilities and programs. University policy prohibits pets in buildings, tents, and on the show grounds.

Portable toilets and hand-washing stations: Facilities are located throughout the grounds (see map). In addition, handicap restroom facilities and infant changing tables are also available in the Special Events Building and Pasto Museum.

Recycling: Please help support Penn State's recycling efforts. Use the blue recycling containers throughout the grounds. These containers are for plastic bottles and mixed paper.

DISCLAIMER: Machinery, equipment, products, and services provided are for educational purposes. Their presence does not imply endorsement or recommendation by Penn State.

Penn State College of Ag Sciences featured units

in the College Exhibits Building:

- **Department of Entomology** — Invasive Species
- **Invasive Species Extension Team**
- **College of Agricultural Sciences Office for Research and Graduate Education along with the Institute for Sustainable Agricultural, Food and Environmental Science** — Technology for Ag and Living Systems
- **Departments of Animal Science, Veterinary & Biomedical Sciences along with Penn State Animal Systems Extension** — Animal Health Issues

Presentations at the College Theater (CT) posted on the Schedule of Events will cover topics such as:

- **11:00 a.m. Daily:** New Screwworm Detected in the US
- **11:30 a.m. Daily:** Research/Technology Based Seminars
- **12:00 – 12:30 p.m. Wednesday:** Invasive Pest Education. Update on Spotted Lanternfly in the Lake Erie Grape Belt Region.

Special Presentations on the Grounds

Ag Progress Days Town Hall Session: 50 Years of Progress and Innovation

Tuesday, August 11, 10:00 a.m. to 11:00 a.m.

Location: Red Barn Annex

Register for the Zoom Session: <https://cvent.me/bLqPKD>

Kick off Ag Progress Days with Dean Troy Ott and Secretary Russell Redding as they reflect on 50 years at Rock Springs and discuss the current state and future of Pennsylvania agriculture. A Q&A session will follow opening remarks.

Please Join the PA. Farm Bureau (Centre, Clearfield, and Clinton County) and KeyState in a panel talk to hear a discussion of the ongoing US fertilizer crisis and KeyState Nitrogen as part of the long anticipated solution

Tuesday, August 11, 3:00 p.m. to 4:00 p.m.

Location: Red Barn Annex

1 Million Ton Per Year Nitrogen Production Coming to Pennsylvania.

Joint House & Senate Agriculture & Rural Affairs Committee Meeting

Wednesday, August 12, 10:00 a.m. to noon

Location: Red Barn Annex

Cultivating 250 Years: Pennsylvania Agriculture—Past, Present, and Future. State legislators and agricultural leaders will discuss the evolution of Pennsylvania agriculture, current challenges, and future opportunities shaping the industry.

Washington, DC Updates from Congressman Glenn “GT” Thompson, Chairman, U.S. House Committee on Agriculture

Wednesday, August 12, 2:00 p.m. to 3:30 p.m.

Location: College Exhibits Building Theater Area

This public event will be hosted by Congressman Glenn “GT” Thompson of Pennsylvania’s 15th Congressional District and Chairman of the U.S. House Committee on Agriculture. He will provide attendees with the latest updates from Washington and highlight the Committee’s work to reauthorize the Farm Bill. After, attendees are encouraged to participate in a Q&A session.

Kubota

**NEW FOR 2026
GRAND L70
SERIES**

Ask about K-Maintenance and Orange Protection to help minimize downtime and avoid unexpected costs. Kubota dealers offer customized financing programs through Kubota Credit Corporation, U.S.A. (KCC), including competitive rates, flexible down payments, and a variety of payment terms.

**Comprehensive
coverage**

Strong. Steady. Unstoppable

Mapping and Booth Label Reference Guide

Exhibitors have specific booth numbers assigning them to their location to connect with our interactive map. Click the exhibitor booth from the online map to search for more information about the company. Booth labels identify the building, tent, or area with the first one or two letters coded for the name of a location; see Locations Abbreviation Key (at the right).

Indoor exhibits located in the building or tent are numbered from the entrance, beginning with the hundred number indicating rows 1 through 5, with the higher numbered booth typically on the southern side of the exhibit tent or building.

Outdoor exhibit booth labels use the first letter or letters to identify if they are located East (E) or West (W) of Main Street or are located on Main Street (M). In addition, outdoor exhibit booth labels use the border streets of Demo Alley (DA) and Harrington Lane (H) as noted on the map. The first one or two numbers identify the street on which they are located, streets 1 through 13. Typically the exhibitor booth space numbers on the north side of street are even and those on the south side are odd numbers.

Meeting Area (W906) is a meeting area on W. 9th Street used to host classroom trainings such as manure broker credits and PA One Stop activities.

Locations Abbreviation Key for Exhibits

	AREA	LOCATION

Tours

Hands-on tours highlight various aspects of agriculture. Get a free ticket and board the bus at the tour registration and loading area at the top of Main Street. There are a limited number of tickets available per tour, so stop by early to reserve your seat.

Managing Pastures with Sheep & Alternative Forages <i>(1 hour)</i>	This tour features hands-on activities with sheep on pastures. Producers will leave with an understanding of paddock fencing and watering system components, with discussion about diverse annual forages including root structure and soil health indicators. Rotational grazing will be demonstrated with a small flock of Katahdin sheep, and we will talk about the use of native grasses and annuals for pasture production. Other sheep-specific topics include parasites and co-grazing with cattle. Tuesday at 10:30 a.m., 12:30 p.m., 2:30 p.m. Wednesday at 10:30 a.m., 12:30 p.m., 2:30 p.m. Thursday at 10:30 a.m., 12:30 p.m. Note: No restrooms available; walking/standing involved; If you miss the bus, feel free to walk up to join us!
Managing Equine Pastures and Dry lots <i>(1 hour)</i>	This tour features a demonstration using horses with hands-on activities in equine pastures. Producers will gain an understanding of pasture management for horses, “do’s” and “don’ts” of sacrifice areas, and tools needed to help improve equine operations. We will walk through the fields and talk about grass and weed identification, innovative pasture methods, and dry lot design for horses on limited acreage at the demonstration site. Tuesday at 10:30 a.m., 12:30 p.m., 2:30 p.m. Wednesday at 10:30 a.m., 12:30 p.m., 2:30 p.m. Thursday at 10:30 a.m., 12:30 p.m. Note: No restrooms available; walking/standing involved; If you miss the bus, feel free to walk up to join us!
Multifunctional Stream Buffers & Native Grass Field Tour <i>(1.5 hour)</i>	This tour focuses on the importance of planting and maintaining trees and shrubs to create a multifunctional stream buffer that will improve water quality, wildlife habitat, livestock health, property value, and provide edible or medicinal plants. You will learn about the 3 P’s of tree establishment- Preparation, Planting, and Protection- to increase tree survival and reduce competition from invasive weeds. See demonstration livestock practices such as fencing and stream crossings and learn about financial assistance programs available. See and learn how to plant native grass fields to increase sustainability and help declining pollinators and beneficial insects. Bus leaves daily at 11:30 a.m. Note: No restrooms available; walking/standing involved.
Woodlot Tour – Tree and Plant Identification <i>(1.5 hour)</i>	Tree and plant identification, along with their ecological and practical uses, will be the featured focus of this year’s tour. Participants will learn how to recognize common and native species using key identifying characteristics. Members of the Penn State Extension Forestry and Wildlife Team will lead this interactive, field-based session, providing hands-on instruction and real-time identification guidance. Ample time will be provided for questions, and participants will be connected with additional educational materials and technical resources to support continued learning beyond the tour. Bus leaves Tuesday at 9:30 a.m., 1:00 p.m. Wednesday: 9:30 a.m., 3:00 p.m. Thursday: 9:30 a.m., 1:00 p.m. Note: Restroom available at the bus stop only. Walking on uneven trails/terrain and standing is involved.
Russell Larson Research Farm Tours <i>(1 hours)</i>	This tour will visit each of the University Research farms at the Rock Springs Facility. Farm managers will present a brief overview of the farm history, current research, and student involvement as well as answering participant questions. Additionally, the tour will include a stop at a farm focused on addressing tomato fruit cracking and raincheck. Researchers are evaluating simple, low-cost, temporary rainout shelters that can be deployed ahead of storms to protect fruit and improve marketable yields under increasingly variable weather conditions. Bus leaves Tuesday at 9:30 a.m., 12:00 p.m. Wednesday: 9:30 a.m., 12:00 p.m., 2:00 p.m. Thursday: 9:30 a.m., 12:00 p.m. Note: No restrooms available. No walking involved.
Open field and High Tunnel Organic and Sustainable Vegetable Production Research Tour <i>(1 hour)</i>	This tour features ongoing research on the sustainable management of soil health and soilborne pests and pathogens in open field and high tunnel vegetable production systems, as well as a tomato variety trial. Participants will visit open field and high tunnel vegetable research plots and will learn about: 1) Fresh market tomato production; 2) Advantages and challenges associated with the use of high tunnels compared to open field production; 3) Organic vegetable production systems and associated opportunities and challenges; 4) Soil health and Anaerobic Soil Disinfestation an innovative biological solution for the management of soilborne pests and pathogens. Members of our research and Extension team will lead the tour and will be available to answer questions. Bus leaves Tuesday at 3:00 p.m. Wednesday at 2:00 p.m. Thursday at 3:00 p.m. Note: No restrooms available. Walking on uneven soil and standing involved.
Rural and Farm Pond Management Tour <i>(1 hour)</i>	Ponds are prevalent in the Pennsylvania landscape and provide enjoyment to numerous landowners. While some ponds occur naturally, most are dug or dammed by landowners for various purposes. This pond tour is aimed at helping private pond owners make informed management choices for their ponds. The tour will take place at an on-site pond. It will cover essential pond plant identification, how to conduct basic pond water quality tests, how land uses and runoff can affect ponds, and basic pond ecology. Bus leaves Tuesday at 10:00 a.m. Wednesday at 10:00 a.m. Thursday at 10:00 a.m. Note: No restrooms available. Walking on uneven soil and standing involved (closed-toe walking shoes recommended).
Composting Tour <i>(1 hour)</i>	The Penn State Extension composting team will host a mortality management composting tour, where we will show proper windrow building, along with temperature collection and windrow turning techniques. This demonstration showcases how composting windrows can be utilized on poultry, swine, and dairy operations for effective organic material management. An active compost windrow has been established onsite and will be approximately six months old at the time of the demonstration. Bus leaves Tuesday at 11:00 a.m. Wednesday at 11:00 a.m. Thursday at 11 a.m. Note: Restrooms available. Walking and standing are involved
New Honey Bee Drone Congregation Area Tour <i>(1 hour)</i>	Honey bee mating occurs 500 meters or more away from the hives at sites called drone congregation areas. Both drones (male bees) and unmated queens leave the hive late in the afternoon in hopes of successfully mating. Come out to see the gathering of the drones who will be attracted by pheromone lures at a site that is used year after year by the bees. This tour requires excellent weather, including sunshine and a lack of wind and will be cancelled if there is rain or wind. Bus leaves Wednesday at 4:30 p.m. Note: No restrooms available. Walking on uneven soil and standing involved.

Daily Schedule

Tuesday, August 11–Thursday, August 13

Machinery Demonstration Map and Schedule

Farm Safety Demonstration Area

End of West 8th Street

Each year the Agricultural Safety and Health program highlights a safety topic important to the everyday lives of farm families. This year learn about the hazards of skid loaders, which are used on farms. The team will introduce skid loader dangers and best practices. There will be demonstrations at 10:00 a.m. and 12:00 p.m. on Tuesday and Thursday, highlighting safety.

On Wednesday, an agricultural rescue demonstration will show specific training required to show how first responders approach the scene to properly manage a tractor rollover incident. This ag rescue demonstration will take place at 11:00 a.m. and 1:00 p.m.

Penn State Pullers student organization will display their 1/4 scale tractor Tuesday and Thursday at 11:00 a.m. and Wednesday at 12:00 p.m. Stop the Bleed Trainings will be provided on Tuesday and Thursday, 10:30 a.m. and 12:30 p.m. and Wednesday 9:30 a.m. and 12:30 p.m.. Stop by the Safety Tent to complete the 30-minute training for a free kit, while supplies last.

Water Wellhead Demonstration Areas

Keeping your well water safe for your family and your livestock is your responsibility. Learn how to keep harmful pollutants out of your drinking water and how to get your water tested. You can join the 30-minute walking tour at 1:00 p.m. daily, meet at JD Harrington Building and walk with Penn State Extension Water team staff to view three wellheads around the area. They will discuss proper wellhead inspection, sanitary well cap use, and setting up a zone of protection around your well. Rain Barrel Talks will be meeting at the same location at 10:00 a.m. and 2:00 p.m. daily outside Pasto Museum.

Cover Crop Plots

Next to the J.D. Harrington Crops and Conservation Building, several Pennsylvania seed companies are demonstrating new cover crop mixtures. Visit Penn State specialists in the Harrington Building or seed company representatives at the Cover Crop Plots at 11:45 a.m. daily for answers to specific questions. Visit Native Warm Season Grass Plot, north of the Harrington Bldg., hosted by PSU Extension and Ernst Seed staff.

Equipment Demonstrations

This year's new field demonstration will feature Combining at 12:30 p.m. daily. Several of the major equipment companies will have units in the field for producers to compare side by side. In action this year will be hay mowers, rakes and tedders, hay balers and bale handlers. New this year will be combining demonstrations at 12:30 p.m., and straw bailing demonstrations at 1:15 p.m. in the west field demo area.

Drone Demonstrations

Southwest of the Farm Safety Demonstration Area (SD) Penn State staff will host pre-approved commercial drone exhibitors to fly the unmanned aerial vehicles (UAV) daily at 10:00 a.m. to 11:00 a.m. based on interest of the pilots and weather conditions. Watch drones in action and learn about their uses in agriculture.

PA Department of Agriculture's

AGRICULTURAL BUSINESS DEVELOPMENT CENTER

Building Stronger Farm & Food Businesses Across Pennsylvania

The PA Department of Agriculture's Agriculture Business Development Center (ABDC) supports farmers, food entrepreneurs, and agribusinesses at every stage of development—helping turn good ideas into viable, resilient businesses that strengthen Pennsylvania's food system.

As a statewide resource, ABDC's technical assistance partners provide confidential, one-on-one technical assistance and educational programming focused on business planning, financial management, market development, and strategic growth. Our mission is to help Pennsylvania's agricultural businesses succeed—economically, environmentally, and socially.

What We Do

ABDC connects farm and food businesses to resource partners who work alongside producers and food businesses to:

- Develop business plans, cash flow projections, and budgets
- Improve profitability, pricing, and cost management
- Explore new markets, value-added opportunities, and scaling strategies
- Navigate business transitions, including start-up, expansion, and succession
- Strengthen long-term business resilience and informed decision-making

ABDC SERVES:

- Beginning and established farmers
- Value-added producers and food processors
- Agricultural small businesses and cooperatives
- Entrepreneurs exploring new agricultural ventures

We proudly work with diversified farms, both organic and conventional operations, and agribusinesses to enhance the viability of farms.

Why work with ABDC and our partners?

- Independent, confidential support
- Advisors with experience across PA agriculture and food systems
- Practical tools—not one-size-fits-all solutions
- A trusted partner for navigating growth, change, and uncertainty

Whether you are refining your financials, exploring new opportunities, or planning for the future, ABDC meets you where you are.

At the Show

If You Think You Know the College of Ag Sciences...ThinkAgain

Find out more about how Penn State and the College of Agricultural Sciences affect your life each day. Stop in at the Undergraduate Education table and learn more about how a quality education can make life better.

Want Solutions? Research gets us there!

College Exhibits Building

Main Street between West 9th and West 10th Streets

Visit with Penn State Extension teams and departments to learn about the latest research from Departments of Animal Science, Veterinary & Biomedical Sciences and Department of Entomology along with the Invasive Species Extension Team. Find out more about the integration of Technology for Agriculture and Living Systems. Learn more about educational opportunities in Agriculture at the Undergraduate Education Office and career information on Agricultural workforce development initiatives.

Ag Business/Crops, Soils, Plants, and Energy Conservation

• Power on the Farm

Tuesday Seminars 10:00 a.m.–12:30 p.m. Farm Family Learning Center (FF)

Explore alternative energy opportunities with the Penn State Extension team as they offer their expertise and insights related to energy. Topics to be addressed:

- 10:00 a.m. R-STEP: Grid and Solar
- 10:30 a.m. R-STEP: Planning and Siting for Solar
- 11:00 a.m. Why is Your Energy Bill Rising?
- 11:30 a.m. Energy Credits Update
- 12:00 p.m. Distributed Wind Energy Opportunities for Farms

• Growing the Next Generation

Wednesday, 1:00 p.m. Red Barn Annex (RB)

Penn State's Small Business Development Center.

• Pumpkin Patch Walk

End of West 11th Street

Learn about the challenges of growing a good crop of pumpkins. Join us at 11:30–12:30 to walk through a pumpkin patch, looking for disease and insect damage, and other challenges associated with growing pumpkins. We will also take a look at the importance of good spray coverage in the crop canopy with a demonstration of vegetable sprayers. Stay for the entire program and receive one core and one category credit. At 2:00 p.m. kids will be given the opportunity to learn while picking a pumpkin.

Family, Youth, and Health Activities

The Animal Adventure Activities

Dairy and Livestock Tent#2 (L) W. 13th Street

Join the Penn State Extension Animal Systems Team to learn about livestock production. Join the extension team for special interactive activities daily at 10:00 a.m. and 1:00 p.m. featuring: Tuesday—Sheep; Wednesday—Milking Cows; Thursday—Hen Handling

Food, Families, and Communities: Healthy Living Exhibits and Demonstration Kitchen

Main Street between West 8th and 9th St (Family Building)

Penn State Extension hosts exhibits for Healthy Living. Healthy eating, physical activity, keeping food safe, managing stress, and tick bite prevention are all part of good physical and mental health for children, youth, and families. Pesticide Education will showcase ways to safely store pesticides, and the Penn State Cancer Institute will provide information about cancer prevention. Also, Food Demonstrations will introduce you to new recipes.

The Youth Building

Main Street and West 8th

Pennsylvania 4-H—Learn about the state 4-H Program and 4-H animal science opportunities. Visit partner programs hosting a variety of children's activities and passport game offered all day as listed on the schedule of events with location of (Y).

Shaver's Creek Environmental Center Wildlife Tent

West 8th Street

Located near the 4-H and Youth Building, this exhibit will feature live animals, an avian nest display of Pennsylvania's breeding birds, craft activities and hands-on opportunities to learn about mammals of central Pennsylvania.

NEW Tilva™

Next to the Joseph D. Harrington Crops, Soils, and Conservation Building, end of East 5th Street

NEW Tilva™ gives you 24/7 access to the trusted knowledge of Penn State Extension researchers and educators. Find instant answers to your agriculture questions at extension.psu.edu/ask-tilva. Please visit many areas throughout the show site to learn more.

NEW: Main Street

Main Street will also feature a showcase of local musicians. Enjoy popular music and songs inspired by the people, places, and rural landscapes that shape our communities. Performances will take place on Tuesday and Thursday starting at 11:00 a.m. and Wednesday at 1:00 p.m.

Rural Health and Safety Tent

End of West 6th Street (next to the Farm Safety Demonstration Area)

There will be FREE health screening opportunities available each day from 9:00 a.m.–4:00 p.m. See the schedule of events for listing (HS) to find more information on health screenings and resources. Resources for farmers with a disability or health condition along with information about achieving your optimal state of health is available from this team of providers.

PAOneStop/AgMap

Conservation Exhibit Area

Learn about online tools that help farmers create detailed maps of their farming operation and assist them in meeting regulatory requirements for erosion, sediment plans, and nutrient management. **Manure Hauler-Broker Training** will be hosted this year on Tuesday and Thursday at 9:00 a.m. at the W. 9th St. Meeting Area (W906).

Yard and Garden Area

End of West 11th Street

Ask the Penn State Extension Master Gardeners for advice on your plant and pest problems! See the schedule of events location (YG) for various presentations and take a tour of the demonstration garden with Master Gardeners to learn more. Learn the latest on **beehive equipment** from Penn State Extension and gain a deeper understanding of the honey bees and native pollinators at the observation hive.

The Equine Experience

The Equine Demonstrations above West 13th Street

The Equine Experience, presented by Penn State's Equine Science program features demonstrations at the Main Horse Arena. (see schedule of events for times listed at MH). See the **six horse hitch** daily.

Pasto Agricultural Museum

Main Street

Explore the tools and technology that were crafted to help produce food and fiber. **Wednesday is Grow Together Program 11:00 a.m.–2:00 p.m.** information and **Thursday is Ag Lit Day 10:30 a.m.–12:00 p.m.** to visit with PSU Press authors. Museum open daily 10:00 a.m.–3:00 p.m. during the show.
