Hello and Welcome!

On behalf of the faculty and staff in the College of Agricultural Sciences, it is my great pleasure to welcome you to Ag Progress Days 2025!

Dating back to the Farmers' Institutes in the late 1800s, the college has a long history of showcasing our agricultural industries and the science, technology and educational programs that help drive innovation and stimulate economic development in the commonwealth. We're proud to continue that tradition with this year's expo.

Those of us in the College of Agricultural Sciences and Penn State Extension value Ag Progress Days for the opportunity it affords us to engage with our industry and governmental partners, prospective students, and other stakeholders. It's also important for us to show the taxpaying public the returns they receive from their investments in their land-grant university.

For those involved in production agriculture and allied industries, Ag Progress Days is a valuable business trip to find out about the latest goods and services, see new technology in action, explore the research that drives innovation, and network with colleagues.

If you're interested in natural resources and the environment, you can learn about water quality, soil and water conservation, woodland management, wildlife habitat, and related subjects.

For consumers and families, it's a chance to speak with experts and gather information about home gardening, foods and nutrition, health and wellness, 4-H youth programs, and other topics. Families also will enjoy the corn maze, the horse events, the butterfly tent, the Pasto Agricultural Museum and other fun, hands-on activities.

During your visit, I encourage you to stop at the College of Agricultural Sciences Exhibits Building on Main Street. There, you'll learn about the college's new Technology for Agriculture and Living Systems initiative, and how scientists are using artificial intelligence and other emerging and advanced technologies in the effort to enhance food and fiber production, biodiversity, natural resources, and human health and well-being.

As you work up an appetite, check out the nonprofit and commodity-group food vendors ready to serve you some of Pennsylvania's bounty.

If you have questions or need directions, stop at the information booth near the top of Main Street, and staff there will be happy to guide you.

Enjoy your day, and if you see me, please stop and say hello. Thanks for coming!

Troy L. Ott

Dean, Penn State College of Agricultural Sciences
Director, Pennsylvania Agricultural Experiment Station

General Information

ATM Machine: Located in the Farm Credit Building at the corner of Main and West 6th Streets.

Disability Services: Golf carts, paid in part by a sponsor Lancaster Farming, will be available at the Ag Alumni Pavilion at West 11th and Main Street. They are made available on a first-come, first-served basis for two-hour increments to individuals with medical needs, and drivers must be 18 years or older. A limited supply of scooters will be available for rent from T & B Medical on West 9th Street.

Information Booth: Located at Main Street and across from West 10th Street. Lost-and-found items are kept at the Information Booth. Lost children and adults should contact security personnel on the grounds or report to the Information Booth.

Medical Services: A first aid station is located in the headquarters (white farmhouse) at Main and West 10th Streets. Emergency medical technicians and an ambulance are on site during show hours. Access emergency assistance by dialing 911 or contact security personnel on site.

Pets: Service animals assisting individuals with disabilities are generally permitted in all facilities and programs. University policy prohibits pets in buildings, tents, and on the show grounds.

Portable toilets and hand-washing stations: Facilities are located throughout the grounds (see map). In addition, handicap restroom facilities and infant changing tables are also available in the Special Events Building and Pasto Museum.

Recycling: Please help support Penn State's recycling efforts. Use the blue recycling containers throughout the grounds. These containers are for plastic bottles and mixed paper.

DISCLAIMER: Machinery, equipment, products, and services provided are for educational purposes. Their presence does not imply endorsement or recommendation by Penn State.

Penn State College of Ag Sciences featured units

in the College Exhibits Building:

- **Department of Entomology** — Spotted Lanternfly
- **Invasive Species Extension Team**
- **College of Agricultural Sciences Office for Research and Graduate Education along with the Institute for Sustainable Agricultural, Food and Environmental Science** — Technology for Ag and Living Systems
- **Departments of Animal Science, Veterinary & Biomedical Sciences along with Penn State Animal Systems Extension** — Animal Health Issues

Daily Presentations at the College Theater (CT) posted on the Schedule of Events will cover topics such as:

- **10:30 a.m. Daily:** Native Bee Pollinator Research with Extension Master Gardeners
- **11:00 a.m. Daily:** Animal Health Management Updates on High Pathogen Avian Influenza and Animal Production
- **11:30 a.m. Daily:** Technologies to advance Agriculture and Living Systems in dairy, soil health and sustainability of controlled environments
- **Noon Daily:** Education on Spotted Lanternfly 101

Special Presentations on the Grounds

Ag Progress Days Town Hall Session with Dean Troy Ott and Secretary Russell Redding

Tuesday, August 12, 10:00 a.m. to 11:00 a.m.

Location: Red Barn Annex

Register for the Zoom Session: <https://cvent.me/Nz4bbv>

Please join us at Ag Progress Days for a Town Hall Session with College of Ag Sciences Dean Troy Ott and Pennsylvania Department of Agriculture Secretary Russell Redding. They will discuss the current state of Pennsylvania agriculture, with a special emphasis on innovation. A question and answer session will take place after opening remarks.

PA Agriculture Conservation Stewardship Certification Program Announcement

Tuesday, August 12, 12:00 p.m. to 12:30 p.m.

Location: Red Barn Annex

PA Department of Agriculture.

Town Hall: Balancing Wildlife and Agriculture

Tuesday, August 12, 3:00 p.m. to 4:00 p.m.

Location: Red Barn Annex

Game Commission, PA Dept. of Ag, PA Farm Bureau, and Hunters Sharing the Harvest working together to help raise awareness and solve issues.

Washington D.C. Updates from Congressman Glenn "GT" Thompson, Chairman of U.S. House Agriculture Committee

Wednesday, August 13, 2:00 p.m. to 3:30 p.m.

Location: College Exhibits Building Theatre Area

This public event will be hosted by Congressman Glenn "GT" Thompson of Pennsylvania's 15th Congressional District, the Chairman of the U.S. House Agriculture Committee. He will provide attendees with the latest updates from Washington and highlight the solutions the House Agriculture Committee is working on to address issues facing farmers in Pennsylvania and across the United States. After, attendees are encouraged to participate in a Q&A session.

Joint Informational Meeting of the House and Senate Agriculture and Rural Affairs Committees

Wednesday, August 13, 10:00 a.m. to noon

Location: Red Barn Annex

Kubota

Sunset satisfaction

Kubota has the #1 compact tractor in Pennsylvania for a reason: engineered to keep going – and to keep you going – with max durability, productivity and comfort.

Comprehensive coverage

Mapping and Booth Label Reference Guide

Exhibitors have specific booth numbers assigning them to their location to connect with our interactive map. Click the exhibitor booth from the online map to search for more information about the company. Booth labels identify the building, tent, or area with the first one or two letters coded for the name of a location; see Locations Abbreviation Key (at the right).

Indoor exhibits located in the building or tent are numbered from the entrance, beginning with the hundred number indicating rows 1 through 5, with the higher numbered booth typically on the southern side of the exhibit tent or building.

Outdoor exhibit booth labels use the first letter or letters to identify if they are located East (E) or West (W) of Main Street or are located on Main Street (M). In addition, outdoor exhibit booth labels use the border streets of Demo Alley (DA) and Harrington Lane (H) as noted on the map. The first one or two numbers identify the street on which they are located, streets 1 through 13. Typically the exhibitor booth space numbers on the north side of street are even and those on the south side are odd numbers.

Meeting Area (W906) is a meeting area on W. 9th Street used host classroom trainings such as pesticide and manure broker credits and PA One Stop activities.

Locations Abbreviation Key for Exhibits

ABBREV	AREA	LOCATION
A	Farm Credit Building	Main and W. 6th St.

Tours

Hands-on tours highlight various aspects of agriculture. Get a free ticket and board the bus at the tour registration and loading area at the top of Main Street. There are a limited number of tickets available per tour, so stop by early to reserve your seat.

Rural and Farm Pond Management Tour <i>(1 hour)</i>	<p>Pond management for private pond owners offering information on basic pond ecology, site management and water quality. Ponds are prevalent in the Pennsylvania landscape and provide enjoyment to numerous landowners. While some ponds occur naturally, most are dug or dammed by landowners for various purposes. This pond tour is aimed at helping private pond owners make informed management choices for their ponds. The tour will take place at an on-site pond. It will cover essential pond plant identification, how to conduct basic pond water quality tests, how land uses and runoff can affect ponds, and basic pond ecology.</p> <p>Bus leaves daily at 9:00 a.m. Plan to arrive early.</p> <p>Note: No restrooms available; walking on uneven terrain and standing involved; require closed-toe walking shoes.</p>
Open Field and High Tunnel Vegetable Production Research Tour <i>(1 hour)</i>	<p>This tour features ongoing research on the sustainable management of soil health and soilborne pests and pathogens in open field and high tunnel vegetable production systems. Participants will visit open field and high tunnel vegetable research plots and will learn about 1) fresh market tomato and cucumber production; 2) advantages and challenges associated with the use of high tunnels compared to open field production; 3) organic vegetable production systems and associated opportunities and challenges; 4) soil health and Anaerobic Soil Disinfection an innovative biological solution for the management of soilborne pests and pathogens. Members of research and Extension teams will lead the tour and will be available to answer questions.</p> <p>Bus leaves Tuesday at 3:00 p.m.; Wednesday at 9:00 a.m.; and Thursday at 3:00 p.m.</p> <p>Note: Walking on uneven terrain and standing involved. No restrooms available</p>
Managing Livestock Pastures with Alternative Forages <i>(1 hour)</i>	<p>This tour features hands-on activities with cattle on pastures. Producers will leave with an understanding of paddock fencing and watering system components, with in-depth discussion about evaluation of diverse cover crop mixes including rooting structure and soil health indicators. High stock density grazing will be demonstrated with a small herd of cattle, and we'll talk about the use of alternative forages for pasture production. We'll also talk about soil health principles and show how annual forages can be used to renovate a degraded pasture without doing any tillage.</p> <p>Bus leaves Tuesday at 10:30 a.m., 12:30 p.m. and 2:30 p.m.; Wednesday at 10:30 a.m., 12:30 p.m. and 2:30 p.m.; and Thursday at 10:30 a.m. and 12:30 p.m.</p> <p>Note: No restrooms available; walking/standing involved; accessible from the grounds by walking.</p>
Managing Equine Pastures and Drylots <i>(1 hour)</i>	<p>This tour features a demonstration using horses with hands-on activities in equine pastures. Producers will gain an understanding of improved pasture management for horses, "do's and don'ts" of sacrifice areas, and hear about tools needed to help improve equine operations. We'll walk through the fields and talk about grass and weed identification, innovative pasture methods, and dry lot design for horses on limited acreage at the demonstration site.</p> <p>Bus leaves Tuesday at 10:30 a.m., 12:30 p.m. and 2:30 p.m.; Wednesday at 10:30 a.m., 12:30 p.m. and 2:30 p.m.; and Thursday at 10:30 a.m. and 12:30 p.m.</p> <p>Note: No restrooms available; walking/standing involved; accessible from the grounds by walking.</p>
Multifunctional Stream Buffers and Native Grass Field Tour <i>(1.5 hours)</i>	<p>This site and tour focuses on the importance of planting and maintaining trees and shrubs to create a multifunctional stream buffer that will improve water quality, wildlife habitat, livestock health, property value, and provide edible or medicinal plants. You will learn about the 3 P's of tree establishment-Preparation, Planting, and Protection-to increase tree survival and reduce competition from invasive weeds. See demonstration livestock practices such as fencing and stream crossings and learn about financial assistance programs available. See and learn how to plant native grass fields to increase sustainability and help declining pollinators and beneficial insects.</p> <p>Bus leaves daily at 11:30 a.m.</p> <p>Note: Walking and standing involved. No restrooms available.</p>
Construction of a Slash Wall, as an Alternative to Deer Fencing <i>(1.5 hours)</i>	<p>Recently created during the 2025 PA Timber Show, this slash wall construction will serve to educate the public about the benefits of this structure over fencing. Participants will learn what material is necessary to build one and what the maintenance requirements are to sustain the structure. Since the construction was only two months ago, visitors should not expect to see too much actual growth inside the wall but you can learn what to expect in the future. Forestry and wildlife professionals will lead the interactive tours and be on hand to answer your questions and connect you with more resources about forests, wildlife and habitat management.</p> <p>Bus leaves Tuesday at 9:00 a.m. and 1:00 p.m.; Wednesday: 9:00 a.m. and 3:00 p.m.; and Thursday: 9:00 a.m. and 1:00 p.m.</p> <p>Note: Walking on trails over uneven terrain/standing involved. No restrooms available.</p>
Animal Research Tours: Finishing Beef Cattle with Alternative Forages <i>(1 hour)</i>	<p>This tour will cover the definition of alternative forages and how to feed those to cattle. The tour will include a visual observation of a load of crossbred beef cattle, being finished of alternative forages at the PA Department of Agriculture's Livestock Evaluation Center.</p> <p>Bus leaves Tuesday at 2:00 p.m.; Wednesday at 10:00 a.m. and 12:00 p.m.; and Thursday at 10:00 a.m.</p> <p>Note: Walking/standing are involved; restrooms will be available.</p>
Russell Larson Research Facilities Farm Tour <i>(1 hour)</i>	<p>This tour will visit each of the University Research Farms at Rock Springs Facility. Farm Managers will present a brief overview of the farm history, current research and student involvement as well as answer participant questions.</p> <p>Bus leaves Tuesday at 9:30 a.m. and 12:00 p.m.; Wednesday: 9:30 a.m., 12:00 p.m., and 2:00 p.m.; and Thursday: 9:30 a.m. and 12:00 p.m.</p> <p>Note: Minimal walking involved. No restrooms will be available.</p>

PROUD SUPPORTER OF AG PROGRESS DAYS

THE AG TAG (formerly Red Tag) program allows landowners to enlist the help of licensed hunters to remove deer causing damage on agricultural land.

NEW FOR 2025

- Season expanded to include regular deer hunting seasons
- Hunters no longer limited to four permits per property

Machinery Demonstration Map and Schedule

Farm Safety Demonstration Area

End of West 8th Street

Each year the Agricultural Safety and Health program highlights a safety topic important to the everyday lives of farm families. This year learn about the hazards of riding lawnmowers, which are used on farms by homeowners. The team will introduce lawnmower dangers and best practices. Demonstrating new research-extension modifications including a vision-based shut off system and a toolkit for owners. There will be demonstrations at 10:00 a.m. and 12:00 p.m. on Tuesday and Thursday, highlighting safety.

On Wednesday, an agricultural rescue demonstration will show specific training required to show how first responders approach the scene to properly manage a tractor rollover incident. This ag rescue demonstration will take place at 11:00 a.m. and 1:00 p.m.

Penn State Pullers student organization will display their 1/4 scale tractor Tuesday and Thursday at 2:00 p.m. and Wednesday at 2:30 p.m. Stop the Bleed Trainings will be provided on Tuesday and Thursday, 10:30 a.m. and 1:00 p.m. and Wednesday 9:30 a.m. and 12:30 p.m.. Stop by the Safety Tent to complete the 30-minute training for a free kit, while supplies last. PSU AgriBot Club will demonstrate daily, Tuesday and Thursday at 1:00 p.m. and Wednesday at noon featuring a robot automated through artificial intelligence.

Water Wellhead Demonstration Areas

Keeping your well water safe for your family and your livestock is your responsibility. Learn how to keep harmful pollutants out of your drinking water and how to get your water tested. You can join the 30-minute walking tour at 1:00 p.m. daily, meet at the entrance to the Pasto Agricultural

Museum and walk with Penn State Extension Water team staff to view three wellheads around the area. They will discuss proper wellhead inspection, sanitary well cap use, and setting up a zone of protection around your well. Rain Barrel Talks will be meeting at the same location at 10:00 a.m. and 2:00 p.m. daily.

Cover Crop Plots

Next to the J.D. Harrington Crops and Conservation Building, several Pennsylvania seed companies are demonstrating new cover crop mixtures. Visit Penn State specialists in the Harrington Building or seed company representatives at the Cover Crop Plots at 11:45 a.m. daily for answers to specific questions. Visit Native Warm Season Grass Plot, north of the Harrington Bldg., hosted by PSU Extension and Ernst Seed staff.

Equipment Demonstrations

This year's new field demonstration will feature Corn Chopping at 12:30 p.m. daily. Several of the major equipment companies will have units in the field for producers to compare side by side. In action this year will be hay mowers, rakes and tedders, hay balers and bale handlers. New this year will be material handler spreaders demonstrations at 1:15 p.m. in the west field demo area.

Drone Demonstrations

Southwest of the Farm Safety Demonstration Area (SD) Penn State staff will host pre-approved commercial drone exhibitors to fly the unmanned aerial vehicles (UAV) daily at 10:00 a.m. to 11:00 a.m. based on interest of the pilots and weather conditions. Watch drones in action and learn about their uses in agriculture.

Pennsylvania

ORGANIC AGRICULTURE

Interested in learning more about organic agriculture in Pennsylvania?

Visit the PA Preferred Organic™ exhibit in the Department of Agriculture building at Ag Progress Days to meet staff, access resources, and learn how the program supports farmers interested in transitioning to organic.

Let's talk organic grain and dairy supply chains!

PDA is helping producers, processors, and buyers connect, navigate sourcing gaps, and explore new opportunities. Zachary Groce, PDA's Food Systems Coordinator, is working on projects to strengthen the middle of the supply chain — with a focus on organic grain and organic dairy. He will also gladly share information on upcoming networking and workshop opportunities available through the RFSI program!

For supply chain entities:

If you have questions, ideas, or just want to talk through a challenge, stop by the PDA table and let's connect or you can contact Zachary Groce at zgroce@pa.gov or (717) 307 - 3252.

PA Preferred Organic™ Program:

If you are interested in further information about PA Preferred Organic™, stop by the PDA table or contact Kristen Markley at kmarkley@pa.gov or (717) 787-6006.

Ag Business/Crops, Soils, Plants, and Energy Conservation

• Power on the Farm

Tuesday Seminars 10:00 a.m.–12:30 p.m. American National Learning Center (FF)

Explore alternative energy opportunities with the Penn State Extension team as they offer their expertise and insights related to energy. Topics to be addressed:

- 10:00 a.m. Anaerobic Digestion Opportunities in PA
- 10:30 a.m. Credit Market for Renewables
- 11:00 a.m. PA Ag Energy Forecast
- 11:30 a.m. What is the Best Energy Source?
- Noon Panel Discussion with experts and users

• Fields of Opportunity: Starting Your Agritourism Journey

Wednesday, 1:00 p.m. Red Barn Annex (RB)

Penn State's Small Business Development Center will host an introductory seminar on starting your agritourism venture.

Conservation Exhibit Area

Harrington Lane

• Natural Resources Conservation Service (NRCS)

Demonstrations supported by NRCS technical staff will focus on working farms. Featuring an **active livestock watering** system with rain and solar-powered pumps for grazing operations, a **scaled concrete heavy use area with roofed manure storage** to address animal concentration areas on the farm, and a **walk through soil tunnel** to demonstrate how soil health and its beneficial properties can impact your operation.

Family, Youth, and Health Activities

NEW – The Animal Adventure Activities

Dairy and Livestock Tent#2 (L) W. 13th Street

Join the Penn State Extension Animal Systems Team to learn about livestock production. Join the extension team for special interactive activities daily at 10:00 a.m. and 1:00 p.m. featuring:

- Tuesday—Sheep
- Wednesday—Milking Cows
- Thursday—Hen Handling

The Family Building

Main Street and West 8th Street

Come visit the Wellspan mobile clinic for information on bicycle safety and prevention of Lyme disease. Visit the Family Room, where Penn State Extension hosts Food, Families, and Communities (FFC) and Pesticide Education exhibits. Healthy eating, physical activity, keeping food safe, managing stress, tick protection, internet safety, and sun safety are all part of good physical and mental health for children, youth and families. See the presentation and cooking demonstration schedule and join us for **Cooking Demonstrations** which will introduce you to new recipes. **Pesticide Education Program** will showcase ways to manage different household pests, and the Penn State Cancer Institute will provide information about colorectal and skin cancer preventions.

The Youth Building

Main Street and West 8th

Pennsylvania 4-H—Learn about the state 4-H Program and 4-H animal science opportunities. Visit partner programs hosting a variety of children's activities and passport game offered all day as listed on the schedule of events with location of (Y).

Shaver's Creek Environmental Center Tent

West 8th Street

Discussions and hands-on natural history exhibits will give you a close look at native **Pennsylvania wildlife species**. Presentations feature live monarchs, turtles, snakes, and amphibians throughout the day, check the schedule for location (SC).

Corn Maze

Next to the Joseph D. Harrington Crops, Soils, and Conservation Building, end of East 5th Street

Spend a few minutes—or several hours—wandering through the corn maze. This maze is accessible to kids, wheelchairs, and baby strollers.

Rural Health and Safety Tent

End of West 6th Street (next to the Farm Safety Demonstration Area)

There will be **FREE health screening opportunities available each day from 9:00 a.m.–4:00 p.m.** See the schedule of events for listing (HS) to find more information on health screenings and resources. Resources for farmers with a disability or health condition along with information about achieving your optimal state of health is available from this team of providers. Worker Protections Standard program will offer a 2 credit course daily, **Tuesday at 10:00 a.m., Wednesday and Thursday at 1:00 p.m.** on Pesticide labels for Worker Protection Standards in the W. 9th St. Meeting Area (W906).

PAOneStop/AgMap

Conservation Exhibit Area

Learn about online tools that help farmers create detailed maps of their farming operation and assist them in meeting regulatory requirements for erosion, sediment plans, and nutrient management. **Manure Hauler-Broker Training** will be hosted this year on **Tuesday at 12:30 p.m.** and **Thursday at 9:00 a.m.** at the W. 9th St. Meeting Area (W906).

Yard and Garden Area

End of West 11th Street

Ask the Penn State Extension Master Gardeners for advice on your plant and pest problems! See the schedule of events location (YG) for various presentations and take a tour of the demonstration garden with Master Gardeners to learn more. Learn the latest on **beehive equipment** from Penn State Extension and gain a deeper understanding of the honeybees and native pollinators at the observation hive.

The Equine Experience

The Equine Demonstrations above West 13th Street

The Equine Experience, presented by Penn State's Equine Science program features demonstrations at the Main Horse Arena. (see schedule of events for times listed at MH).

Pasto Agricultural Museum

Main Street

Explore the tools and technology that were crafted to help produce food and fiber. **Wednesday is Grow Together Program** information and **Thursday is Ag Lit Day** to visit with PSU Press authors. Museum open daily from **10:00 a.m. to 4:00 p.m.** during the show.
