

Regulations do not make clean water.
PEOPLE and **ACTIONS** do.

Agriculture's View on Water Issues and Regulations

- ▶ We are in the business of “doing business”

Agriculture's View on Water Issues and Regulations

▶ Regulations are in place and sufficient

- Clean Water Act
- Manure Management
- Nutrient Management
- NPDES CAFO
- WOTUS
- Chapter 105
- Ag Erosion and Sedimentation
- Chesapeake Bay Agreements
- WIPs

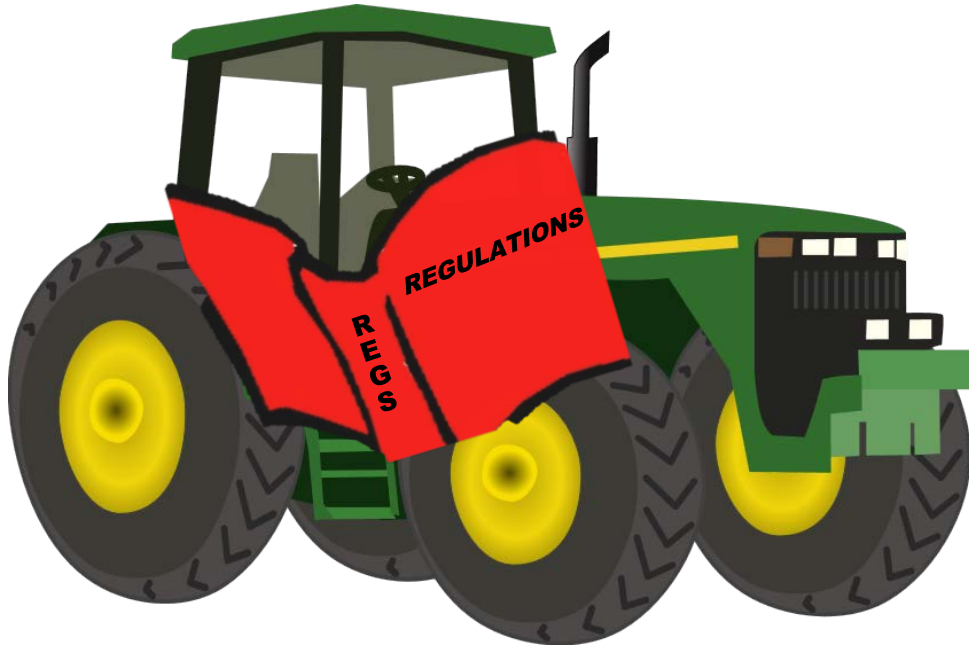

But are they implemented?

Agriculture's View on Water Issues and Regulations

▶ What is needed for implementation?

- Messaging and Education
- Funding – state and federal
- Technical Experts
- Technology
- Consequences – EPA Backstop for PA Ag
- Congressional Actions to approve innovative ideas such as: AquaAdvantage[®] Salmon and Enviro Pig – as we learned from Dr. Ott during the Ag Council Legislative Tour

Regulations do not make clean water.
PEOPLE and **ACTIONS** do.
