

THE FRENCH COUNTRYSIDE: LANDSCAPE DEVELOPMENT IN FRANCE

Landscape development at the Villandry. This was my favorite garden because of the different themed areas. The symbolic garden of love was absolutely beautiful. What you see below is a picture of me at the sun garden. To the right is a picture of the chateau and the kitchen garden where the vegetables are harvested for various purposes.

Villandry

We visited Giverny, Claude Monet's garden, while in France. Here we looked at different ways that Monet used his landscape architecture to influence his artwork.

GIVERNY

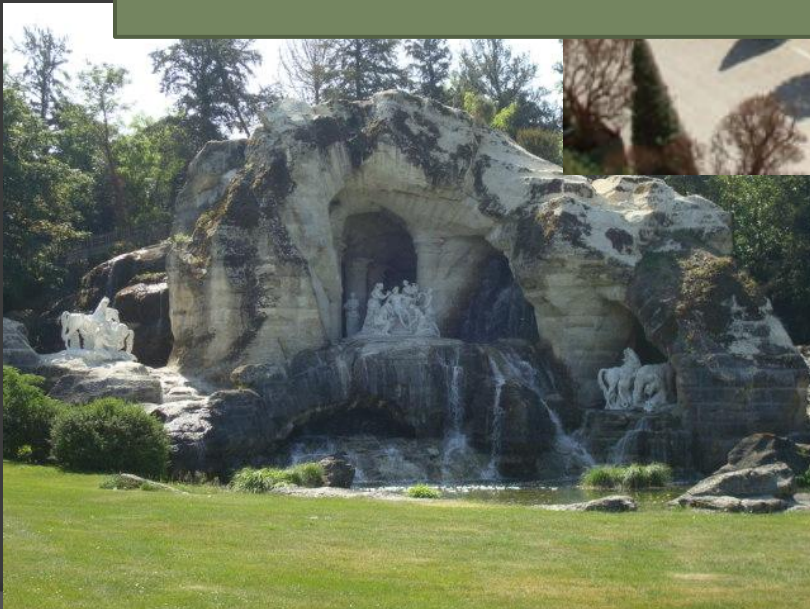

Vaux le Vicomte

Versailles

Nothing will ever compare to the landscape design techniques displayed at Versailles. Our study abroad group spent hours reviewing the landscape on the grounds.
