

PennState

Department of Agricultural and Biological Engineering

Thursday, April 20

1:30-2:15 pm

304 Forestry Resources Laboratory

Gerald W. Longenecker, P.E.

2017 Outstanding ABE Engineering Alumnus

Executive Vice President of Engineering

Skelly & Loy, Inc.

Topic: “Engineering Consulting as a Career Choice”

Mr. Longenecker will present a profile of Skelly & Loy and will discuss current day project opportunities. He has 35 years experience dealing with the regulatory approval process in the environmental consulting field. This experience has been gained through the management and technical participation in a broad range of projects including stream restoration, watershed assessments, stormwater management, solid waste handling, industrial and sanitary wastewater treatment, dam safety, water resources engineering, and wetland-related evaluations.
