Spring 2018 Seminar Series

*" OK...you have good grades and an advanced degree from a pretty good school!
What else is important to be successful?
A perspective from a senior leader"*

**Presented By
Dr. Dave Yake**

Retired Technology & Business Director, DuPont

Dave Yake served in various technology, business and sales leadership roles over a 33 year career with DuPont at numerous locations in the US, Asia and Canada. The main focus was driving a multifunctional innovation process to reduce costs, develop and commercialize new products, and processes and accelerate sales on a global basis for the chemicals, polymers and fibers businesses. As a senior leader it was critical to deliver against stretch corporate objectives through the continuous development of people in the organization.
