Re: 2012 Lloyd Noble Scholars in Agriculture Internships

Enclosed please find a program poster for the 2012 Lloyd Noble Scholars in Agriculture program. This program offers internships in agriculture to college students with at least a junior level classification. We ask that you please display our poster at an appropriate location and encourage your interested students to apply.

These internships offer educational opportunities with the Noble Foundation Agricultural Division in its core areas of expertise: animal science and livestock management, agricultural economics, agronomy, horticulture, range management, soils and crops, and wildlife and fisheries. This program provides students the opportunity to work directly with a team of consultants and research scientists in the development and implementation of farm- and ranch-based consultation and research.

The application deadline is January 15, 2012.

Thank you for your help in this matter. If you have any questions or need additional information, please contact me at mfmcmillan@noble.org or by phone (580)224-6403, or visit our program Web page at www.noble.org/LloydNobleScholar.

Sincerely,

A handwritten signature in cursive script, appearing to read "Mary McMillan".

Mary McMillan
Executive Assistant
Agricultural Division
