

# NEW Core Lab

Meet the Biomarker Core Lab (BCL), a wet lab specially designed for **ELISA, Multiplex assays, and Telomere length analysis**. This 1,200 ft<sup>2</sup> shared use facility is setup for complete sample analysis, sample organization, sample aliquoting, long-term sample storage and independent use of lab equipment by PIs and their research staff. **Available now for use.**

**Not for profit.** The BCL is designed to help researchers analyze samples. Fees are only to cover costs for materials, equipment use and maintenance, and staff.

**Guidance.** From research design and quotes for grants to data analysis. The BCL can help guide you through innovative research

**Experts.** The BCL is full of experts with many years of experience for the most reliable results available.

**To find out more about what the BCL can do**

**Date: November 09, 2017**

**Time: 9:00 a.m.**

**Location: 110 Henderson – The Bennett Pierce Living Center**

Please **RSVP**, space is limited. Contact:
