**Re: 2012 Noble Summer Research Scholar Internships**

Enclosed please find a program poster for the 2012 Noble Summer Research Scholar Program. This program offers internships in plant science to qualified undergraduates.

Noble Summer Research Scholars work side-by-side with a mentor scientist and laboratory members from the Noble Foundation's Plant Biology Division or Forage Improvement Division. Scholars perform a research project specifically tailored to their interests and educational background. Scholars are involved in all laboratory activities, while conducting experiments to further their own research project. At the conclusion of the program, Noble Scholars present their findings to the Noble Foundation scientific community.

Please display our poster at an appropriate location and encourage your interested students to apply. **The application deadline is February 3, 2012.**

Thank you for your help in this matter. If you have any questions or need additional information, including past scholar research summaries, please contact me at [edrousey@noble.org](mailto:edrousey@noble.org) or by phone (580) 224-6206, or visit our program Web page at [www.noble.org/SummerScholar](http://www.noble.org/SummerScholar).

Best regards,

Emily Rousey  
Scholar Program Coordinator
