**8th Translational Research in Mitochondria, Aging, and
Disease (TRiMaD) Symposium**

**September 21-22, 2018
The Pennsylvania State University
University Park, PA**

Keynote Speakers

- **Roberta Gottlieb, MD** (Vice Chair of Translational Medicine, Cedars-Sinai Medical Center, Los Angeles)
- **Mark Stoneking, PhD** (Max Planck Institute for Evolutionary Anthropology, Leipzig).

Confirmed Speakers

- **David Brown** (Virginia Tech)
- **Zhenglong Gu** (Cornell University)
- **Konstantin Khrapko** (Northeastern University)
- **Smita Patel** (Rutgers)
- **Agnes Sfeir** (NYU)
- **Hazel Szeto** (Weill Cornell Medical)

Every year the Translational Research in Mitochondria, Aging, and Disease (TRiMaD) Symposium brings together approximately 150-200 scientists from the Northeast to discuss the critical role of mitochondria in aging and disease. This two-day regional symposium promises to be a very exciting collaboration between groups with common interests.

More Information and Registration Coming Soon!

Please e-mail Donna McMinn (dlp18@psu.edu) if you have immediate questions.

Conference Co-Organizers: Kateryna Makova and Donna Korzick
